

OCEANSIDE  
CHAMBER OF  
COMMERCE

February 24, 2009

To Whom It May Concern,

On behalf of the Oceanside Chamber of Commerce, our Board of Directors and our over 870 business members, I am pleased to write this letter in support of the Communities of Excellence Program developed by Quantum Learning Network.

Communities of Excellence is a character building program that brings together family, schools and other organizations including the business community to develop and inspire young students to make positive contributions to society.

The Oceanside Chamber of Commerce feels that this program will go a long way in providing the positive, productive and well balanced leaders so necessary for the future of Oceanside. We strongly support the Communities of Excellence / 8 Keys of Excellence program.

Sincerely,

David L. Nydegger  
President & CEO  
Oceanside Chamber of Commerce
